2. RATES AND CHARGES (Cont'd)

## 2.05 Electronic PABX Systems - SX200 (Destandardized)

- (a) The initial service period is five (5) years for the initial installation of equipment which includes the common equipment, attendant's console, trunk cards and line cards.
- (b) The minimum monthly charge will include billing for common equipment and console, 4 trunks and 24 PBX telephones (excluding additional telephones).

3. ADDITIONAL LINES AND TELEPHONES

- 3.01 The rate for a P.B.X. additional line provides for one 500 type telephone.
- 3.02 Channels connecting the switchboard with terminating equipment located in a different building from that of the switchboard are subject to distance charges in N260-3 and N690.
- 3.03 The Company does not undertake to provide satisfactory transmission on any call on which two or more telephones connected to the same P.B.X. additional line are used simultaneously.

4. TRUNK LINES

- 4.01 Rates for trunk lines are in N100-5.

5. TIE TRUNKS

- 5.01 Tie trunks are channels between P.B.X. switchboards. Tie trunks may be provided between equipment of different customers.
- 5.02 Tie trunks are provided for communications as follows:
  - (a) Between terminating equipment directly connected to and on the same premises as the associated switchboard.
  - (b) Between such terminating equipment of one system, through a trunk line of the other system, with any other primary service in the same or another Exchange (two-point only).

Standard operation and transmission may not be obtained if they are used otherwise.
- 5.03 Tie trunks having terminals in different buildings are subject to local and interexchange distance charges in N260-3 and N690.

## PRIVATE BRANCH EXCHANGE SERVICE

6. DIRECT INWARD DIALING

**Note:** The business service elements of this item are forborne from regulation in certain Exchanges, as identified in Section 100, Item 4.02. C

6.01 General

This arrangement provides the necessary Central Office equipment to permit direct inward dialing to an additional line or local of a Company provided PBX system or of a customer provided switching system classified as a PBX from a Central Office line. It is provided subject to the availability of suitable facilities and is available only to a customer who is provided service from a suitably equipped line-serving switch Central Office. C

C  
C

6.02 Rates and Charges

a)	<u>DID Numbers</u>	<u>MRC</u>	<u>SC</u>	<u>USOC</u>
	First group of 25 telephone numbers equipped with outpulsing for one-way tone and voice page	\$49.19	MESC	TF1
	Second group of 25 telephone numbers	\$44.57	MESC	TF2
	Third group of 25 telephone numbers	\$40.69	MESC	TF3
	Group of 100 telephone numbers	\$173.04	MESC	TF4
	Each block of 25 numbers after 100 numbers	\$38.48	MESC	TF5

b)	<u>DID Feature</u>	<u>MRC</u>	<u>SC</u>	<u>USOC</u>
	Each Access Feature	\$110.62	\$2,007.25	TFA

One feature provides two access channels to all PABX additional telephones. The volume of calls dictates the number of units required.

Two local channels (loops) are required for each access feature installed. The Local channel charges are airline distances measured from the Company Central Office to the Customer location.

c) PABX Trunk

In addition, the Customer is required to provide suitable trunk equipment as part of the PABX to terminate each Company supplied DID Access feature.
